

BARK MULCH COVERAGE GUIDES

TO ESTIMATE # OF YARDS REQUIRED

Length in feet x width in feet = square feet x depth factor (see factor below for depth in inches) = cubic feet. Then divide by 27 = yards.

DEPTH		DEPTH FACTOR
1"	X	.08
2"	X	.16
3"	X	.25
4"	X	.33
5"	X	.42
6"	X	.50

YARD TO SQUARE FEET TO DEPTH IN INCHES

Estimated coverage by 1 yard mulc. The recommended depth is 4 inches.

CUBIC YARDS	DEPTH IN INCHES	COVERS SQ. FT.
1	1"	324
1	2"	162
1	3"	108
1	4"	81
1	5"	64
1	6"	54
